**STUDENTS ARE STRONGEST WHEN WE UNITE**

## A NATIONAL UNION TO FIGHT EDUCATION CUTS

In 2015 when the government wanted **\$100,000** degrees. **The NUS fought back.**

Stopping all students from incurring a debt sentence through collective action. Curtin Students couldn't do it alone. We need a strong National Union of Students.

## A NATIONAL UNION FOR STUDENT RIGHTS

The union has fought for decades for students' rights. It has been part of every social movement that affects students since then. It was instrumental in advocating for **marriage equality** and took to the streets to **end conscription**. The National Union also played a key part in **saving triple J** and lowering the **age of Independence** from 25 to 22.

## A NATIONAL UNION FOR OUR FUTURE

The fight is not over. We are in the middle of a climate crisis, a pandemic and facing national and international attacks on students. **We need to stand with all students to demand better.**

## A NATIONAL UNION FOR ALL STUDENTS

**The NUS is only as strong as it's membership - the student movement is only as strong as the NUS. The two need to be working in unison. The NUS is here to represent all students - We are fundamentally a union and a union requires the solidarity and commitment of its members.**
